

Introduction to Using ICT: Introduction to Using ICT Systems

Introduction

This course offers an introduction to using computers. You will learn the basics of computer usage and how to use the keyboard and mouse. You will also be shown how to use Microsoft Word and Paint. You will also be introduced to the health and safety issues surrounding the safe working environment as well as some of the laws surrounding the use of IT. This course will give you the knowledge and practice you need to be able to use a computer independently

What will you learn?

By the end of the course you should be able to:

- Know about computer hardware, software and associated health and safety issues
- Carry out the initial steps needed to use a computer, and make use of common types of hardware and software.

Who is this course aimed at?

This course is particularly suitable for people with limited or no experience in using computers and who want to learn how to use the basic elements of a computer. If you are afraid of using computers and have shied away from this in the past, now is the time to have a go and stop being afraid.

What are the entry requirements? (If applicable)

There are no formal entry requirements for this course. This course is particularly suitable for people with limited or no experience in using computers or for those who are self taught and would like to develop their understanding further.

How is it taught?

You will be guided through the learning in a supportive and encouraging way. You will work with the tutor and other students to learn how to use a computer. There will be some group work and discussions that take place, as well as opportunity for you to work in pairs. Students often support each other; this is a positive way of reinforcing what you have learnt.

How will you be assessed?

You will be assessed through completing some gap filled handouts on the computer as well as you making notes on steps that are undertaken.

What will you achieve?

If you complete the course successfully you will achieve 3 Open College Network (OCN) Credits at Entry Level 3. The OCN Credits you achieve are part of a national system for recognising and accrediting the learning you have undertaken on this course. Once you complete this course you can build the number of credits you have achieved by undertaking further short courses as detailed below.

What can you do after this?

Once you have completed this course, you will need to practice all the skills that you have learnt on this course. Once you are confident in using the skills from this course, this means getting lots of practice; you can then progress on to the next one. We recommend that the next course you undertake is Word Processing at Entry level 3. The Word Processing course will cover in a little more depth Microsoft Word the software package that you used on this course.

Who are the tutors?

The course is run by Zed Bhatti. Zed is experienced in working with individuals and groups to support their personal development and learning in a positive and supportive way.

When does it run?

This is a three day course which includes two nights residency at the College. Courses start at 5:00pm on the first day and finish around 3:30pm on the third day. Please check our website or short course guide for course dates. Alternatively you can contact our Short Course office.

Is there a cost?

This course is free if you are claiming certain types of benefits. Otherwise it is £40 (£10 surcharge for students holding a degree). All accommodation, food, teaching & course materials costs are included.

How can you apply?

For more information please contact the short course office on 0121 472 0116 or email shortcourses@fircroft.ac.uk. You can apply online at www.fircroft.ac.uk, by post or in person.
